US probes dolphin deaths after Navy sonar use

(Al Jazeera) The National Marine Fisheries Service on Wednesday said it was investigating the death of two dolphins found washed ashore in California shortly after Navy ships were using sonar in nearby waters. Necropsies have been conducted, and the animals are being analyzed to try to determine what caused them to get stranded, agency spokesman Jim Milbury said. The dolphins were common bottlenose dolphins, Navy spokeswoman Lt. Julie Holland said. They were found Oct. 21 at Imperial Beach and at Silver Strand beach in San Diego. Two Navy ships were using mid-frequency active sonar 80 nautical miles away from where the dolphins were found, Holland said. They used the sonar for slightly more than an hour over two days from Oct. 19. Navy ships use sonar to search for submarines in the water. The ships pump sound through the water and listen for objects from which the sound bounces off. The sound waves from sonar have the potential to harm or kill marine mammals that rely on sound to communicate, navigate and otherwise survive. In September the Navy agreed to limit and in some places ban its use of sonar and explosives off Hawaii and Southern California after U.S. District Court Judge Susan Oki Mollway ruled in favor of environmentalists who filed lawsuits claiming the Navy gravely discounted the danger its training events pose to cetaceans. She wrote in her ruling that the National Marine Fisheries Service permitted the Navy to kill certain whale and dolphin populations at rates that could jeopardize their ability to survive. There are just 323 common bottlenose dolphins in the California coastal population of the species, Henkin said. The California, Oregon and Washington offshore population numbers 1,006.

International News – Significant Events

Russian plane crash: U.S. officials say ISIS bomb may have brought down jet

(CNN) Egyptian Civil Aviation Minister Hossam Kamel said officials have found no evidence to support the theory that a bomb caused Russian Metrojet Flight 9268 to crash in Sinai. As U.S. intelligence suggests terrorists may have bombed Metrojet Flight 9268, several countries are taking extra precautions -- but for different reasons. Metrojet's entire Airbus A321 fleet has been grounded while "additional safety checks are being conducted," Russia's federal air safety watchdog Rostransnadzor said Thursday. But British officials have halted flights from the Egyptian resort city of Sharm el-Sheikh due to concerns that the plane may have been bombed and "a credible threat to British nationals." Flight 9268 crashed Saturday in Egypt's Sinai Peninsula after breaking apart in midair, killing all 224 people on board. It was headed from Sharm el-Sheikh to St. Petersburg, Russia. U.S. officials told CNN that intelligence suggests ISIS or its affiliates planted a bomb on the Russian plane. The officials stressed that no formal conclusion has been reached by the U.S. intelligence community and that U.S. officials haven't seen forensic evidence from the crash investigation. But the intelligence also suggests someone at the Sharm el-Sheikh airport helped get a bomb onto the plane, one U.S. official said.

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- A cold and dry air mass will settle over portions of Southern California this week, bringing sub-freezing temperatures to interior areas early this morning and again early Friday morning. The coldest area will be the Antelope Valley, Los Angeles County, where several hours of temperatures between 27 to 32 degrees are expected this morning. The interior valleys of San Luis Obispo, Santa Barbara and Ventura Counties will likely experience temperatures close to but slightly above freezing.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Temperatures will become more seasonal over the next few days as ridging slides over the Pacific Northwest. A cold storm system will then impact Northern California bringing rain Saturday night through early next week. Snow levels will fall as the system moves overhead Sunday into Monday.

Medford Weather:

The upper level ridge will transition east ahead of the next system. Precipitation from this system will reach the coast around mid-morning.

Reno Weather:

Drier weather along with a slight warming trend is forecast for today into Saturday. Another cold winter storm system will impact the area Sunday through Tuesday with breezy conditions, rain and snow.

San Francisco Weather:

The coolest morning so far this fall can be expected today and frost advisories are up for portions of the North Bay Monterey and San Benito Counties. After a chilly start Thursday expect another sunny and mild afternoon. No big changes Friday and Saturday with dry and seasonably mild weather. Chance of North Bay showers by Sunday with better chance of rain Sunday night into Monday as next cold front arrives.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Cloudy and cool today. Fair skies and warming to near normal Friday and Saturday. Rain and cooler than normal again Sunday and Monday then mainly dry and cool the remainder of next week.

Hanford Weather:

Mostly clear skies and a slight warming trend for the remainder of the week as weak high pressure remains over the area. Rain and mountain snow possible by Sunday night and Monday as another weather system moves through.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Weak offshore flow will develop today and continue through Saturday. Dry conditions are expected along with warming temperatures and some north to northeast winds. On Sunday and Monday a low pressure system will move across the state. Cooler temperatures can be expected along with the possibility of some showers on Monday.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

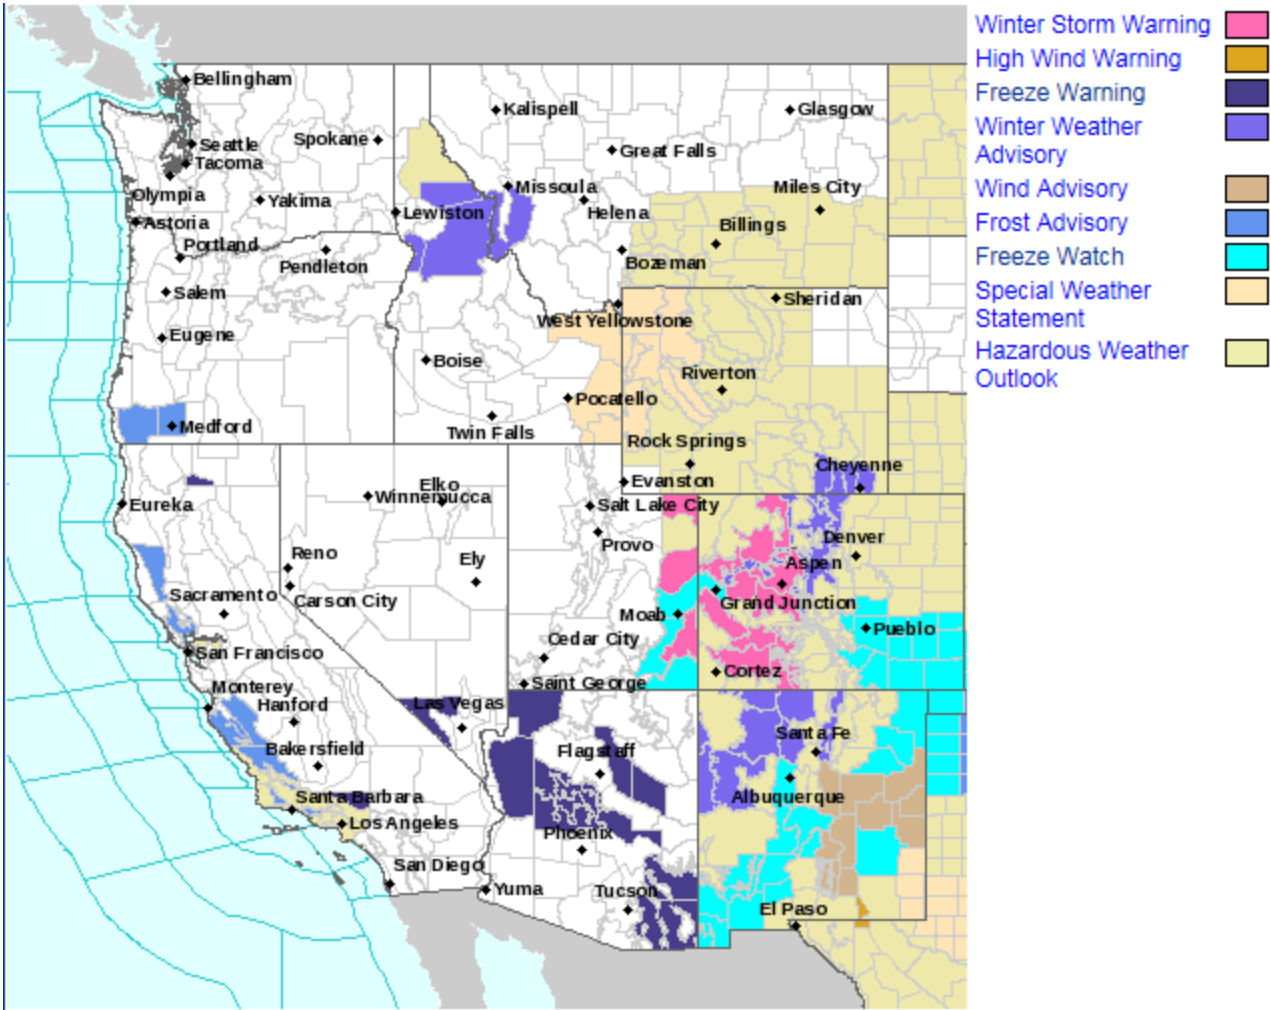

Fair and warmer weather is forecast today through the weekend as high pressure aloft returns. Offshore flow will strengthen Friday and Saturday to produce locally gusty winds in the foothills. Next week a trough of low pressure will move through the area. It will bring much cooler weather strong gusty winds and a small chance of showers Monday and Tuesday.

Southeast California Weather:

Low pressure will exit the region this morning ushering in drier air and continued cooler temperatures. Below normal temperatures will persist through Friday before rising to above normal levels over the weekend and into next Monday. Another low pressure system will move across the area early next week bringing another sharp cooling trend and increased breeziness but little in terms of rainfall.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every other Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 62 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 28 Counties: Butte, Colusa, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
